I object to the approval of Chapter 11 Case No 09-50026 (REG) (Jointly Administered)
of Motors Liquidation Company et al, f/k/a General Motors Corp et al, debtors because I
purchased 150 shares of General Motors stock which has become worthless.

I purchased 150 shares believing that General Motors stock was a good investment. The
US government thought so, too, because GM received bailout money. So why should
individual stockholders now have their investments worth zero? I object to this action.
